Other Variants	***Refer to respective SM-6000 variant's brochure for more detail										
Keyboard	18 x Keypad (For 8" Operator only)										
Types	Linerless With Auto-Cutter										
Roll Diameter	Max 95mm										
Label / Roll Width	Max 62mm										
Receipt Print Width	Max 61mm										
Printing Speed	Max 150mm / second*										
Print Resolution	300 dpi										
Power Source	Compliance to 80PLUS Power Saving**										
Operating Temperature	-10°C to +40°C										
Humidity	15% to 85% RH Non-Condensation										
Standard Interface	Ethernet 10 / 100 Base T, 4 x USB 2.0, RJ11										
Net Weight	13.3 kg	14.9 kg	14.9 kg	21kg	12.5 kg	14.1 kg	16.7 kg	13.3 kg	14.9 kg	13.7 kg	15.6 kg
Options	Wireless LAN IEEE 802.11 a / b / g / n / ac, e.Label with Hi-Touch, InfoTag, e.Sense, BYO, Contactless, Queue Printer, Base Station, Speed ID										
Factory Option	2nd Receipt Printer except all the PC Based Self-Service System Scale Printer, Auto Tilt Sensor										

* To achieve maximum print speed, high sensitivity thermal paper is necessary.
 ** 100-120Vac Gold (North America, Canada and Japan)
 210-240Vac Silver (European, UK and most of Asia)

SM-6000 / H / 0621

SM-6000

Be Free From Limits

Searching for a New Balance

Showcasing a built-in motion-activated sensor, e.Sense can be easily installed on container or dispenser to enable automatic transmission of PLU code to the scale.

Be Free From Limits

Unlock Frictionless Retail with SM-6000

Leveraging radio frequency identification (RFID) technology to detect tare weight, you can now enjoy packaging-free shopping with your own containers.

Achieve your sustainability goals with accurate tracking of wastage by capturing its data according to type, quantity and location of disposal.

- Improve procurement planning with insights from the analysis report
- Identify near-expiry products for markdowns

Create a safe retail environment with in-store virtual queues and offer a contactless pickup experience with the integrated collection system.

- Minimise physical clustering
- Optimise waiting time with multi-department queue
- Supports API integration with third-party mobile queue app

DIGI Management Console lets you remotely manage scale data and label design while granting easy access to sales reports and system settings.

- Tool for remote services, software updates and network wide configuration
- Minimise downtime by providing first-level remote support service

Enable automatic clerk identification via RFID technology while preventing unauthorised access to the scale.

- Built-in clerk log report for contact tracing and operation analysis
- Available in 2 variants: Tag or Wristband

DIGI Solution Ecosystem

With no backing paper and twice as many label prints on a single label, this sustainable solution helps businesses to save on storage space while reducing logistic costs.

- Quick and easy roll replacement
- Flexible label design
- Crisp and appealing label presentation

Easily integrable with retailers' existing mobile shopping apps, this solution is designed to minimise the risk of cross-contamination at the self-weighing stations by using Bluetooth technology to enable a fast and touch-free weighing experience.

- Touchless and intuitive operation
- Auto PLU call-up

Accurate, versatile and durable, DIGI's enterprise-grade electronic shelf label is developed to accelerate in-store digitisation with its error-free wireless price updates.

- Integrated QR code and Near Field Communication (NFC) capabilities
- Seamless integration with scale via USB base station for automatic price synchronisation

Combining a high definition e-Paper display with the tap-activated Hi-Touch feature, the robust e.Label offers optimal readability with swift PLU call-up.

- Error-free automatic PLU call-up
- IP67 certified for frequent cleaning
- Available in 3 sizes (1.54", 2.7", 4.2")
